Health Insurance:
The first step to be taken by the returnee is that of contacting the family doctor who would then recommend him to a specialist. In case the patient's situation is problematic, he will be referred to the panel of doctors who will decide whether or not the patient is granted the status of invalidity which makes him eligible to a sickness/invalidity grant. In case the patient obtains that status a good percentage of the medication is covered by the state. As regards other categories, they will be reimbursed with no less than 50 % of the medicine of the reimbursable medicine list, which is updated every year. The patient will have to apply for the health card at his locality outpatient clinic so that he can get services, otherwise he will have to pay for every visit even at the public hospitals. The access to the public hospitals is free but, if the patient is without the invalidity status as recognized by the health authorities, he/she will have to pay to get the services. The payment of invalidity is granted to people with disabilities, in the form of monthly sums. These are disabled people due to physical, intellectual, sensory, psychic impairments, born or sustained in life in accidents, illnesses which are not work related :
