Facilitating a joint approach to return and reintegration

Ensuring that migrants can return to their home countries in a dignified, humane and sustainable manner is a legitimate and politically important goal at an EU level, and a key part of efforts to manage migration. With many EU countries facing similar pressures, working together to explore shared solutions can help improve both the efficiency of return processes, and the quality of support offered to returning migrants.

WHO WE ARE

The European Return and Reintegration Network (ERRIN) is an initiative that facilitates cooperation between migration authorities. Operational since mid-2018, 15¹ European countries currently participate in ERRIN, with membership open to any EU Member State or Schengen-associated country.

The work of ERRIN is driven by its Member States, with activities coordinated by the Programme Management Unit (PMU) in Brussels. The International Centre for Migration Policy Development (ICMPD) is an implementing partner of the ERRIN programme, providing expertise and administrative support. The European Commission and the European Border and Coast Guard Agency (FRONTEX) are ERRIN members. ERRIN is funded through the EU's Asylum, Migration and Integration Fund (AMIF), with co-financing from participating national agencies. The programme will continue until June 2022; after the initial timeframe of 48 months, a range of ERRIN activities will be transferred to FRONTEX.
